

**Corrigendum to:**

Thiem, Alrik. 2017. "Conducting Configurational Comparative Research with Qualitative Comparative Analysis: A Hands-On Tutorial for Applied Evaluation Scholars and Practitioners." *American Journal of Evaluation* **38** (3): 420-433.

In Table 3 on page 427, the prime implicant on the last row for outcome *LPF* should read

" $CA \wedge PR$ ", not " $CA \wedge \neg PR$ ".

I thank Edward Miech and Edgar Hollandsworth for alerting me to this typesetter mistake.
